

315

PROTECTION & TREATMENT FOR FABRIC

Description

- The 315 is formulated from a blend of fluorinated polymers allowing it to waterproof the fibers of all kinds of textiles, boat tops, tarpaulins, textile cushions etc.
- Unlike other waterproofing agents, it is the fiber itself which is made water-repellent, for a long lasting protection and prevention of the formation of halos.

Product information

Composition	Contains n-butyl acetate, propan-2-ol, isopropanol, isopropanol
Appearance/ Odour	Liquid / alcoholic - Almond
pH	N.A
Density	N.A
Flash point	12°C (53.6°F)
Transport N° ONU	1993
Storage	In its original packaging, away from fire and heat. In a ventilated, cool area.
Packaging	Spray 750ml

Directions for use

Compatibility / supports	fabrics, textiles ...
Méthodes	<ul style="list-style-type: none"> - The 315 is used pure on a clean and dry surface. - Spray the surface to be treated evenly and allow it to dry. - NB. Always test on a small area

Danger

Danger
